OVERVIEW

Technical

- 7 years of experience in front-end development.
- Good understanding of Javascript, React JS, React Native, Redux, Angular, HTML, CSS, Bootstrap, MySQL, and JSON.
- Other knowledge: Webpack, Module Federation, Micro-frontend Architecture, GraphQL.
- Good functional knowledge of Software Deployment, JIRA, Manual Testing, and Unit Testing (Jasmine, Karma, JEST, Enzyme).
- Passionate about writing structured and understandable code
- Experience in utilizing version control for codings like Git and SVN.
- Good debugging and troubleshooting skills
- Self-learner of new technologies
- Good team player with problem-solving skills
- Operating System - Windows 7/8/10/11, Ubuntu, Linux, Mac OS

Managerial

- Ability to self-organize and work effectively within a small team with minimal supervision.
- Providing technical guidance/support to the team.
- Positive work attitude, self-motivator, quick learner, and team player.

EXPERIENCE

Flexsin Technologies Private Limited

JULY 2021 - AUG 2022

Sr. Programmer

- Design and implement user interface components for JavaScript-based mobile and web applications using React ecosystem
- Work with third-party dependencies and APIs (Twilio streaming, google map, social sign-in)
- Work with Redux architecture to improve the performance of the websites/mobile apps
- Familiar with Agile Scrum.

Dataman Computer Systems Pvt. Ltd.

JANUARY 2018 - JUNE 2021

Software Developer

- Support the entire applications lifecycle (concept, design, test, release, and support)
- Produce fully functional mobile applications writing clean code
- Gather specific requirements and suggest solutions
- Troubleshoot and debug to optimize performance
- Design interfaces to improve user experience
- Ensure new and legacy applications meet quality standards

Microelectronix

JUNE 2015 - DECEMBER 2017

Software Developer

Developed and Collaborated on various Android Applications, Web projects, and API

Development.

Technopits

Android Development Intern

JUNE 2014 - AUGUST 2014 (3 MONTHS)

LIVE PROJECT: DCNTV.IN For a Billing Software Entitled as dcntv.in

WEB PROJECTS

Infosys 5 Service

SEP 2022 - JAN 2023

Description - For Communication Service Providers (CSPs), enterprises and OEMs embarking on the digitization and virtualization journey, Infosys Network Engineering Services is the preferred partner to:

- Build and operate networks cost-effectively
- Effect accelerated new-age network transformation through innovative solutions
- Open new revenue streams by harnessing complementary capabilities

Technologies - React JS, Typescript, Redux, Ant Design Pro, Ant admin panel, Umi Js,

Role and responsibility

- Implement an admin template with the help of Umi js Framework.
- Convert Figma UI to React Component and make it functional
- Integrate API with the application.
- Define tasks to team members

TripCandy

JAN 2022 - AUG 2022

Description - TripCandy is a crypto travel platform that turns your travel experience into crypto investment.

Technologies - React JS, Redux, Redux-thunk, Bootstrap, SCSS, HTML 5

Role and responsibility

- Design UI in React js.
- Integrate API with the application.
- Code compression and optimization for fast Application working
- integrate social login (google and facebook)
- integrate Payment Gateway
- Implement advance search and filter functionality.

Eazy in Admin Portal

SEP 2021 - JAN 2022

Description - Eazy In admin panel is design to manager all the bakend of eazy in mobile application. In which we can manage Id proofs of the user. Hotel manage thier room, room occupancies, books hotel rooms. Also we can check various reports of the booking and occupancy.

Technologies - React JS, Redux, Redux-thunk, Bootstrap, SCSS, HTML 5

Role and responsibility

- Design UI in React Compnent and make it fully functional.
- Integrate API with the application.
- Create booking system.
- Create reports with the help of chart.

Cogniable

MAY-2020 TO JULY-2021

<https://application.cogniable.us/>

Description - It is a Heath Management App that manages Patient Activities, and Reporting.

Technologies - React JS, Redux, Redux-saga, GraphQL

Role and responsibility

- Communicate with GraphQL APIs.

- UI Design.
 - Code compression and optimization for fast Application working
-

Finacko GST & invoicing solutions for businesses

DEC 2018 - APR 2020

Description - Inventory management solution improved with inventory reports such as input, sales, purchase, and Debit/Credit notes by the client.

Technologies - React JS, Ant design, Redux, Redux Thunk, Typescript, HTML, CSS, Bootstrap, Javascript

Role and responsibility

- Design and developed full Responsive UI for all Screen Resolution.
 - Communicate with REST APIs.
 - Code compression and optimization for fast Application working.
 - Contribute to the design and architecture of the project.
 - Resolve defects/bugs during testing, pre-production, production, and post-release patches.
-

Broncoequestrian Order management System

JULY 2018 - DEC 2018

<https://broncoequestrian.com/>

Description - It's an Order management Tool with place order, Claiming, Order Tracking, Inventory Management, and Reordering functionality.

Technologies - Angular 8, Codeigniter(PHP), HTML 5, SCSS, Bootstrap, JSON

Role and responsibility

- Developed APIs/Backend
 - Communicate with REST APIs.
 - Code compression and optimization for fast Application working.
-

Digitalbiller

SEP 2017 - DEC 2017

Description - It's a Billing Application For Cable Tv Operators with a new version. In this, we include new features and technology.

Technologies - Angular 2, Typescript, HTML, CSS, Bootstrap, javascript, Webpack, Karma, Jasmine, Git

Role and responsibility

- Design and developed full Responsive UI for all Screen Resolution.
 - Communicate with Django REST APIs with the help of angular HTTP requests, Observable and subscribers.
 - Manage Applications by using Webpack package Manager Build Tools.
 - Create Unit Testing with the help of Karma and Jasmine.
 - Code compression and optimization for fast Application working
-

REACT NATIVE PROJECTS

Panthiea E-Commerce App

JULY 2021 - SEP 2021

Description - Create A E-commerce app with all ecommerce functionalities with map guide feature.

Technologies - React Native, Redux, React Navigation, Redux-thunk, Redux-Persist, Firebase chat, Google map.

Role and responsibility

- Communicate with REST APIs.
- UI Design.

- Code compression and optimization for fast Application working.
 - Integrate Firbase chat and Google maps.
-

Clinikio

JAN 2018 - JULY 2018

<https://play.google.com/store/apps/details?id=com.clinikio>

Description - Clinikio is a retail health and telemedicine platform founded in 2021 to help address the ever growing health needs in our communities, especially primary healthcare. It is designed to bring you much closer to your doctors. It utilises perfectly crafted technological solutions to offer virtual consultations with your doctors from anywhere in the world at any time, via calls (audio and video) and chats.

Technologies - React Native, Redux, React Navigation, Native base, Redux-thunk, Redux-Persist, Firebase, Twillio audio and video streaming apis

Role and responsibility

- Communicate with REST APIs.
 - UI Design.
 - Code compression and optimization for fast Application working.
 - Integrate Twillio Audio and Video Calling APis
-

Eazy In App

MAY 2021 - AUG 2021

Description - It is for contactless checking in a hotel. User can submit their documents to the hotel using a QR scan.

Technologies - React Native, Redux, React Navigation, Native base, Redux-thunk, Redux-Persist.

Role and responsibility

- Communicate with REST APIs.
 - UI Design.
 - Code compression and optimization for fast Application working.
-

Signature Global Society App

NOV 2019 - JULY 2020

AppStore Link - [HTTPS://APPS.APPLE.COM/IN/APP/SIGNATURE-GLOBAL-APARTMENT-APP/ID1533229080](https://apps.apple.com/in/app/signature-global-apartment-app/id1533229080)

PlayStore Link - [HTTPS://PLAY.GOOGLE.COM/STORE/APPS/DETAILS?ID=COM.DATAMAN.SECUREGATE](https://play.google.com/store/apps/details?id=com.dataman.securegate)

Description - It's a Society management App that manages the daily Activity of Society.

Technologies - React Native

Role and responsibility

- Communicate with REST APIs.
 - UI Design for all devices
 - Publish the app on the play store and app store
-

Latent Talent Quiz App

SEP 2017 - DEC 2017

<https://play.google.com/store/apps/details?id=com.latenttalent>

Description - It is a Quiz app that takes user Assessment.

Technologies - React Native, React native router flux,

Role and responsibility

- Design and developed full Responsive UI for all Screen Resolution.
 - Communicate with REST APIs.
 - Code compression and optimization for fast Application working.
-

OTHER PROJECTS

- Dataman Product : https://play.google.com/store/apps/details?id=com.dm.crmdm_app
